I-LEARN

ENGLISH SCHOOL

A Legacy of Learning, Reimagined for the Future.

Our Transformation

Rooted in a profound commitment to educational excellence, our journey began as the Iqbalia English Medium Higher Secondary School. For decades, we served as a pillar of academic rigor and moral grounding within the community. Today, as we transition into i-Learn English School, we carry forward that rich heritage while embracing a modern, global perspective.

This evolution is not merely a change of name, but a bold reaffirmation of our core purpose. We are expanding our horizons, adopting progressive pedagogies, and integrating cutting-edge technology to ensure our learners are not just prepared for exams, but equipped for life in an interconnected world. The foundation remains steadfast, the architecture allows it to soar higher, taller.

About Us

i-Learn English School stands at the intersection of tradition and innovation. We provide a rigorous academic environment that challenges students while nurturing character. Our faculty are not just instructors; they are mentors dedicated to nurturing critical thinking, empathy, and a lifelong passion for discovery. Here, expansive workshops in our curriculum allow for deep dives into subjects, ensuring knowledge is internalized, not merely memorized.

IN PURSUIT OF EXCELLENCE

Vision

To be a premier institution of international standing, cultivating global citizens who possess the intellectual agility, ethical fortitude, and innovative spirit required to lead and inspire in a complex, rapidly evolving world. We envision a learning ecosystem where every student's potential is recognized and relentlessly fostered.

Mission

-  To deliver a transformative educational experience through rigorous, inquiry-based curriculum that demands critical thought and academic mastery.
-  To foster an environment of unwavering respect, integrity, and inclusivity, building character alongside intellect.
-  To equip students with the technological fluency and intercultural competence necessary for seamless integration into the global community.

The I-Learn Graduate

Our learner profile represents 12 key attributes that define the character, capability, and worldview of an I-Learn student, preparing them for excellence in an interconnected global landscape.

Inquirers

They pursue fair curiosity, developing skills for inquiry and research. They learn with enthusiasm and sustain their love of learning.

Learn More

Knowledgeable

They explore critically, think and reason that have fair and global implications. In so doing, they acquire multiple knowledge across disciplines.

Learn More

Thinkers

They exercise creative in applying thinking skills critically and creatively to recognize and approach complex situations.

Learn More

Communicators

They express themselves confidently and constructively in more than one language and in many ways. They collaborate effectively.

Learn More

Principled

They act with integrity and honesty, with a strong sense of fairness and justice, and with respect for the dignity and rights of people everywhere. They take responsibility for their actions and their consequences.

Learn More

Open-minded

They actively appreciate their own cultures and personal histories, as well as the values and traditions of others.

Learn More

Curriculum Framework

Early Years Programme

AGE 3-5 YEARS

Our Early Years Programme provides a nurturing, play-based environment where natural curiosity is the primary driver of learning. We focus on holistic development, encompassing social-emotional skills, sensory exploration, and foundational literacy.

- Play-based, inquiry-driven education.
- Focus on social and emotional development.
- Stimulating learning environments.

Primary School Programme

AGE 6 TO CLASS V

The Primary Programme builds upon early foundations to develop confident, independent learners. Our curriculum integrates core academics with project-based learning, fostering critical thinking, collaboration, and a deep understanding of global contexts.

- Interdisciplinary, project-based curriculum.
- Emphasis on critical thinking and problem-solving.
- Development of core literacy and numeracy skills.

High School

Classes VI to X

Preparing students for the challenges of the 21st century through rigorous academic foundations and comprehensive skill development.

Excellence in Board Preparation

Our structured approach ensures students are thoroughly prepared for their crucial board examinations while developing critical thinking skills.

21st Century Skills

Integrating technology, problem-solving, and analytical reasoning into daily learning.

Continuous Assessment

Regular evaluations to track progress and identify areas for personalized academic support.

Comprehensive Subject Focus

A balanced curriculum emphasizing STEM, languages, and social sciences to provide a well-rounded academic foundation.

Core Subjects Offered

Sciences & Math

- Mathematics
- Physics
- Chemistry
- Biology

Languages

- English First Language
- Multilingual
- Hindi / Urdu / Urdu

Social Sciences & IT

- History & Civics
- Geography
- Information Technology

Higher Secondary

Computer Science Stream

Curriculum Overview

➤ PLUS ONE (GRADE 10)

- Introduction to Computer Systems & Architecture
- Programming Fundamentals in C++
- Boolean Algebra & Logic Design
- Data Representation & Computational Thinking

➤ PLUS TWO (GRADE 11)

- Advanced Data Structures & Algorithms (C++)
- Database Management Systems & SQL
- Web Technologies (HTML, CSS, JavaScript)
- Networking Concepts & Cyber Security

HIGHER SECONDARY PROGRAM

Computer Applications & Commerce

Blending traditional financial acumen with modern technological literacy. This specialized track prepares future business leaders to navigate data-driven markets and digital economies with precision and strategic insight.

[Finance](#)[Analytics](#)

Core Synergy

Accountancy

Mastery of financial reporting, corporate accounting, and auditing principles, forming the foundation of international commerce in our global business.

Economics

Deep dive into micro and macroeconomic theories, market behaviors, and fiscal policies, understanding the forces that shape global business landscapes.

Computer Applications

Practical application of databases, data analytics, and business software development, turning financial-commerce into actionable digital solutions.

100%

University Placement Rate

Career Trajectories

This hybrid curriculum is specifically engineered to fast-track students into premium higher education programs and elite corporate roles.

Chartered Accountancy (CA)

A rigorous foundation for pursuing elite financial certification and auditing roles.

Investment Banking

Leveraging data analytics and economic theory for high-stakes financial advisory.

Business Analytics & MBA prep

Combining technological proficiency with management fundamentals for future leadership.

Empowering Future Innovators

Our state-of-the-art facilities are designed to inspire curiosity and foster hands-on learning. We provide an environment where students can explore, create, and solve real-world problems through advanced STEAM education.

STEAM Ecosystem

Integrating Science, Technology, Engineering, Arts, and Mathematics to build resilient problem-solvers.

Atal Tinkering Lab (ATL)

A dedicated workspace fostering innovation. Equipped with 3D printers, robotics kits, and microcontrollers, empowering students to create and build tangible solutions to complex challenges.

Smart Classrooms

Interactive digital displays, high-speed connectivity, and ergonomic seating designed for collaborative learning and immediate access to global resources.

Computer Science Lab

High-performance workstations configured for coding, data analysis, and software development, providing the essential infrastructure for digital fluency.

Advanced Science Labs

State-of-the-art Physics, Chemistry, and Biology laboratories built to university standards. Featuring top-tier safety equipment and precision instruments for rigorous experimental research.

Admissions Information

Begin your journey with Hussein English School. Our admissions process is designed to identify students who will thrive in our challenging and supportive environment.

The Process

1. **Enquiry Register**
Browse the website and contact us for more information.
2. **Complete Your Application**
Submit an online application form and supporting documents.
3. **Interview**
A meeting with our admissions team to discuss your application and answer questions.
4. **Offer of Admission**
Successful candidates receive an offer letter.

Required Documents

1. Completed Application Form
Filled in by the student/parent.
2. Academic Records
Official transcripts from previous schools.
3. Academic Reference
Letter from a teacher or school official.
